OF

MISSOURI TROOPS

FOR

1862.

PUBLISHED BY AUTHORITY.

ADJUTANT GENERAL'S OFFICE,
STATE OF MISSOURI,
ST. LOUIS, 1*st Jan.*, 1863.

Entered according to Act of Congress, in the year 1863, by

CAPT. ALEXANDER LOWRY,

In the Clerk's Office of the District Court of the United States for the Eastern District of Missouri.

MEMORANDA.

The Officers whose names are borne on this Register are those who have been commissioned by His Excellency Governor Gamble to 31st December, 1862, and therefore the only ones duly recognized.

Line Officers on detached service, and those detailed on Regimental Staff duties, so far as known at Head-Quarters, are so noted at the foot of their respective Companies.

Particular effort has been made to get the names correct, though owing to irregularity and obscurity in communications, rolls, &c., this has been found in some cases very difficult.

The vacancies in the consecutive numbers of the Regiments are caused by those which have been mustered out of the service, or which have failed to be organized. Since the Register has been put to press, the 14th Regiment has been transferred, by order of the War Department, to the State of Illinois.

See Appendix for various information.

PREFACE.

In issuing the present Register, it is thought expedient to make some remarks with reference to what is necessary in the official organization and direction of Troops. In raising an Army from the masses of citizens, inexperience and impatience of restraint are the cause of much embarrassment. The duty of the State is to see that its Soldiers are not only sent into the field properly provided and equipped, but that strict military rules are observed in the formation of the corps. This is as essential to an effective force as to the interest of every individual composing it. To obtain a proper organization, it is important that Officers should realize their duty in respect to the required routine. In this duty they are aided by "regulations" founded upon experience, and the sphere of each Soldier is so clear, simple and practical, as to make what may be thought an unnecessary and tedious formality, a requisite and agreeable official discipline.

In the Appendix to this work will be found Lists of the Rolls, Returns and Reports required to be made by various Officials. The existing official "regulations" being made with a view to the regular United States Army, experience has shown the necessity of other formalities adapted to the service of the Volunteers. Among the papers which should be furnished regularly to the Adjutant General of the State, the following are the principal:

1. Regimental Monthly Returns.
2. Certificates of Decease, and Inventories of Effects of Officers.
3. Certificates of Decease and Inventories of Effects of Non-commissioned Officers and Privates.
4. Lists of Casualties.

Recruiting Officers should be particular that the enlistment paper of every man be made in triplicate and signed by each, and by a Surgeon of

the service after examination of the recruit. In recruiting new companies, a copy of the enlistment papers should be forwarded with the Muster Roll to the Adjutant General of the State, who, after examination of the same, will certify to the roll before the muster of the company into service of the United States. The enlistment papers are retained and filed with the copy of the Muster Roll when returned from the mustering Officer.

The Governors of the States being invested with the appointing power in Volunteers, no person is properly an Officer unless duly commissioned by the Governor, and the Paymaster may refuse payment to any Officer not so commissioned. Whenever, therefore, it is desired to fill vacancies, recommendations should be immediately made by the Commanders of Corps to the Governor, through the Brigade Division and Departmental Commanders; upon receipt of which commissions will issue, unless withheld, for some proper reason, by his Excellency. Officers on receipt of their commissions should acknowledge the same to the Adjutant General of State.

The observations in regard to appointments in Volunteers apply to the Field and Staff of the Militia. Vacancies in the Line are filled by election, and certificates of election should be forwarded immediately thereafter, in order that the Officers may be commissioned.

Great care should be taken *in all cases* concerning names, which should be clearly and correctly written, the christian name being given in full, and the initial of the middle name, if any. Such is the irregularity in this matter that it is almost impossible to obtain the correct names of those engaged in the service. Many cases will arise in the future with regard to pensions, bounties, legacies, &c., when the question of the correct name of an Officer or Soldier may involve his interests or those of his heirs.

In the certificates of decease, not only the time and place must be given, but whether killed in action, died from wounds received in action, or of disease, and the certificate should be forwarded without delay. As soon after every action as possible, a correct list of the killed, wounded and missing of each Corps should be forwarded to the Adjutant General, so that they may be recorded and answers given to the proper inquiries of those interested.

It not unfrequently occurs that Officers are reported upon the Monthly Returns, month after month, as "absent without leave." Commanders of Corps should notify the Departmental Commander, at once, of such absentees, with proper remarks concerning them, so that they may be ordered back to duty, or mustered out of service.

In all communications to the Adjutant General, Officers should give the name of the nearest Post Office to their Camp, so that replies may be made direct to them, and thus avoid the delay occasioned by addressing them through the Head-Quarters of the Department in which they are engaged. It would also be extremely useful to receive semi-monthly advice as to the station of each Corps.

Many other points might be here referred to; the object, however, in these remarks is to suggest the most important, and to impress upon Officers the necessity of their performance of official details.

The office of the Adjutant General of the State being that from which emanates the administration of its Troops, subject to the action of the National Legislature and the orders of the Secretary of War, it is, or should become, the depository of its military archives. The desire of the Commander-in-Chief is to render it efficient for the protection of the interest of the Soldier as well as to encourage his promotion. With this view every Officer should give to it his respectful consideration, in doing which he will promote harmony, order, and that just *esprit de corps* so essential to an effective Army.
